## RESUME SUMMARY

I am a full-stack developer with hands-on experience in building AI-powered applications, automation workflows, and modern, user-focused web interfaces. I have worked on real-world, production-ready projects involving intelligent chatbots, workflow automation, admin dashboards, and responsive frontend systems. I specialize in integrating AI models, APIs, and low-code automation tools to create efficient, scalable solutions that reduce manual effort and improve user experience.

## EDUCATION

### Bachelor of Science in Information Technology (BSc-IT)

KLE Society's Science, Commerce, AI & Cybersecurity College, Mumbai (April 2025) CGPA: 7.35

### Higher Secondary Certificate (12th – Science)

Harmony Public School & Junior College, Mumbai (April 2022) Score: 66%

### Secondary School Certificate (10th)

St. Joseph High School, Mumbai (April 2020) Score: 68%

## CERTIFICATION COURSE

Cybersecurity essentials ( December 2024 - Present )

Oracle Cloud Infrastructure 2025 Generative AI Professional ( November 2025 Present )

Oracle Cloud Infrastructure 2025 AI Foundations Associate ( November 2025 -Present )

## EXPERIENCE AND PROJECTS

### INTERNSHIP - AIONUS : AI & Automation Intern

Duration: 3 Months

- Worked on Generative AI and agent-based AI systems for real-world applications.
- Designed and implemented automation workflows using n8n for chatbots and backend processes.
- Integrated AI models with backend services and databases.
- Assisted in deployment, testing, and debugging of AI-powered web applications.

### PROJECTS - AIONUS : AI Powered Real Estate Platform

- Developed a premium real estate web platform with modern UI/UX principles.
- Implemented dynamic property listings with filtering for Buy, Sell, and Off-Plan properties.
- Built an admin dashboard for property and content management.
- Integrated an AI Advisor chatbot to handle customer inquiries.
- Implemented lead capture and contact management functionality.
- Ensured full responsiveness across desktop and mobile devices.
- Deployed the application in a live production environment.

## SKILLS

**Programming Languages:** Python, JavaScript, Java, React

**AI & Automation:** Generative AI, Agent AI, Prompt Engineering, n8n Automation

**Web Technologies:** HTML, CSS, JavaScript, React (Basic), Node.js (Basic)

**Backend & Databases:** Firebase , Supabase , AWS

**Tools & Platforms:** Kali Linux, Git, VS Code, VirtualBox, Anitgravity

**Security Fundamentals:** Linux security, networking basics, pfSense, API authentication & rate limiting
